Education

Indian Institute of Information Technology, Design and Manufacturing, Jabalpur *Aug 2023 - Present*
Bachelor of Technology in Electronics and Communication Engineering

Experience

Docstribе, Gurgaon, India *Aug 2026 - Present*
Software Development Engineer Intern

Stack: Python, FastAPI, Celery, Redis, Google Cloud Storage, PostgreSQL, REST APIs

- Rebuilt **WhatsApp** notification delivery on the **Pinnacle API** with split connect/read timeouts and a **3-attempt retry** in place of one 30s timeout, reaching **1.04s** average latency in production
- Served consultation audio, radiology scans and patient images from **Google Cloud Storage** via **time-bound signed URLs**; fixed a private-LAN routing failure by generating prescription PDFs through GCS, restoring **100% delivery success**
- Decoupled long-running **AI transcription** jobs from **FastAPI** workers with a **Celery + Redis** task queue, and added **RBAC** with multi-tenant data scoping across admin endpoints

Rimo LLC, Tokyo, Japan (Remote) *Jun 2026 - Jul 2026*
Software Engineering Intern

Stack: TypeScript, React, Next.js, Go, Python, LangChain/LLMs, GCP (Cloud Run), Firestore

- Improved stability of the **Rimo Voice** web platform: diagnosed and **fixed bugs** in the **TypeScript/Next.js** client and shipped targeted UX improvements
- Analysed quality of **AI-generated landing pages** and **refined LLM prompts**, validating each change against a repeatable eval setup to lift **generation accuracy**
- Tested new features and triaged defects with the engineering team to keep releases on track

CircuitVerse (Open Source) *Jan 2026 - Present*
Issue Triage Team Member

Stack: Ruby on Rails, PostgreSQL, Vue.js, JavaScript, HTML5 Canvas, Jest, GitHub Actions

- **Triaged and categorised** the incoming issue backlog on the **Rails** monorepo, turning raw reports into a clear, actionable queue for **maintainers**
- **Reproduced reported bugs** in the **Vue.js** UI and **HTML5 Canvas** logic simulator and improved contributor **documentation**, lowering onboarding friction for newcomers

Technical Skills

Languages: TypeScript, JavaScript, Go, Python, C/C++, Ruby, SQL, HTML/CSS

Frameworks: React, Next.js, Vue.js, Node.js, FastAPI, Celery, Rails, Prisma, LangChain

Tools & Data: Git, Docker, GCP, PostgreSQL, Redis, MongoDB, Firestore, BigQuery, GitHub Actions

Core Concepts: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS

Projects

AI Interview Platform (*Next.js, TypeScript, Prisma, PostgreSQL*) *Mock Master*
◦ Engineered an **AI-powered mock-interview platform** in **Next.js** and **TypeScript** with a responsive **Tailwind + Shadcn UI** front end

- Backed it with **Prisma ORM** on **PostgreSQL** and **secure authentication**, and integrated the **Google Voice API** for real-time **speech-to-text**

P2P Encrypted File Storage (*Go, TCP, AES, SHA-1, Concurrency*) *file_storage*

- To share files without a central server, built a **peer-to-peer distributed file store** in **Go** on a custom **TCP transport** with message broadcasting and **streaming**
- Added **AES encryption** per transfer over a **SHA-1 content-addressable store**, and served peers concurrently with **Goroutines**, fetching missing files from peers on demand

In-Memory Key-Value Store (*Go, TCP/IP, RESP, Concurrency*) *GoRedis*

- Aiming for client compatibility, engineered an **in-memory key-value store** in **Go** implementing the **Redis Serialization Protocol (RESP)**, so standard Redis clients connect unchanged
- Architected a **concurrent TCP server** on **Goroutines** and **Channels** with an **event-loop pattern**, using **sync.RWMutex** for **thread safety** under parallel reads and writes

Achievements & Extra-Curricular

- **Data Structures & Algorithms:** Solved **650+** algorithmic problems on **LeetCode** (Rating **1,851** – Knight)
- **Competitive Programming:** Solved **200+** problems on **Codeforces** (Pupil, 1389) and **CodeChef** (3-Star)
- **Leadership:** Core member of the **Programming Club**, mentoring juniors in **DSA**; **2nd place** in the PROD-G Business Event
